

ANNUAL PROGRESS REPORT ON THE GOALS AND TARGETS WE COMMITTED 2023-2024

Sustainable development goals

Introduction

The Sustainable Development Goals (SDGs), also known as Global Goals, are a set of 17 integrated and interrelated goals to end poverty, protect the planet and ensure that humanity enjoys peace and prosperity by 2030.

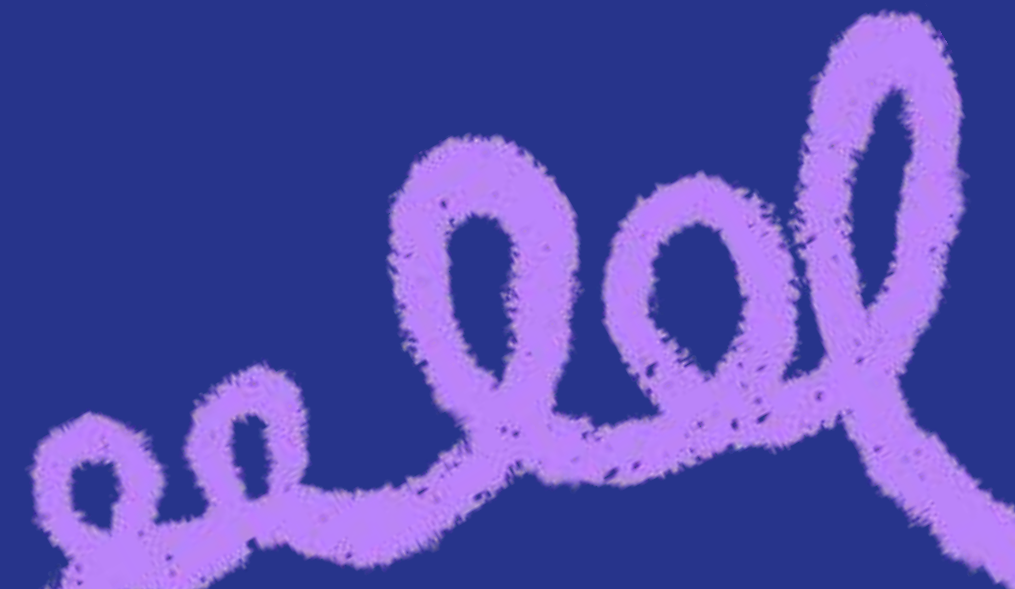

Reporting on the SDGs is important in communicating to stakeholders the company's commitment to contributing to the Global Goals; claiming accountability and responsibility to take the necessary actions; and measuring progress over time.

SDG Progress Reports cater to a variety of audiences, so it's best to adjust it accordingly. First, identify your target reader. Next, you can shift your focus on what they need to know. For example, your action plans are in the interest of your beneficiaries. Your investors might prefer details like timelines or budgets, while others like your external stakeholders will be more interested in the impact made, the challenges you encountered and the lessons you learned from them.

Navoi State Pedagogical Institute (NSPI) is committed to contributing to the achievement of SDGs through various research, educational, and community-based initiatives. The university actively publishes its progress on this goal through annual reports, research publications, and specific projects aimed at poverty reduction

1 NO POVERTY

In addition to encouraging students to launch businesses, the institution also offers full or partial financial assistance to individuals who take an active role in the venture

NSPI has special number of targets to admit the following applicants:

- From low- income families
- Classified as having a disability or serious illness
- Orphans
- Forced migrants
- From military families

1. There are special targets to admit students who fall into low-income quantile.
- 2.Student Support Union aims to identify poor student and find out the ways to fulfill their needs.
- 3.NSPI authorities take actions which focused on supporting poor families. They manage and control the activities regularly.
4. Financial department of the university provides students with tuition fee discounts, free dormitory access, food and transportation aids.

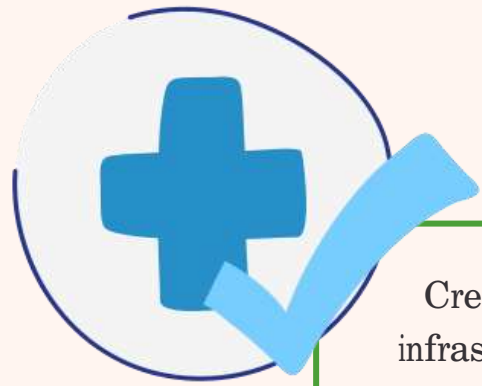

"SHASHLIK DAY" WAS HELD IN THE INSTITUTE

Today, on January 21, a meeting with a group of students and employees was organized at the Navoi State Pedagogical Institute. NSPI presented food packages consisting of 13 types of products to a group of needy people, children of families listed in the social registers of the neighborhoods, and employees studying at this university. At the end of the meeting, the speakers thanked the university management for their attention.

2 ZERO HUNGER

Creating a robust health infrastructure for students, academic staff, and administrative personnel is essential for fostering a healthy and productive campus environment.

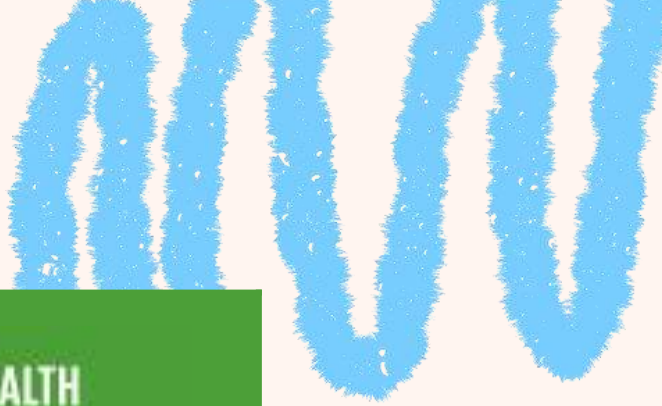

Campus Health Center: A fully equipped health center offering primary care, mental health services, and wellness programs.

53 people received 39,198,000 soums from social insurance, 30% of women received treatment at the expense of the trade union.

Accessible mental health support including counseling, workshops, and crisis intervention.

3 GOOD HEALTH AND WELL-BEING

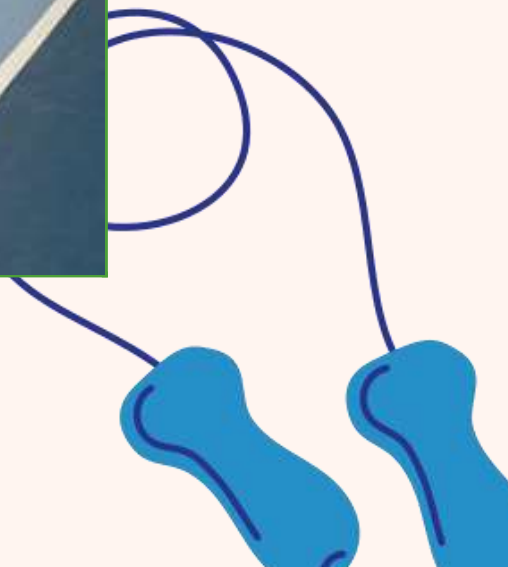

Well-equipped gyms with diverse fitness classes and personal training options.

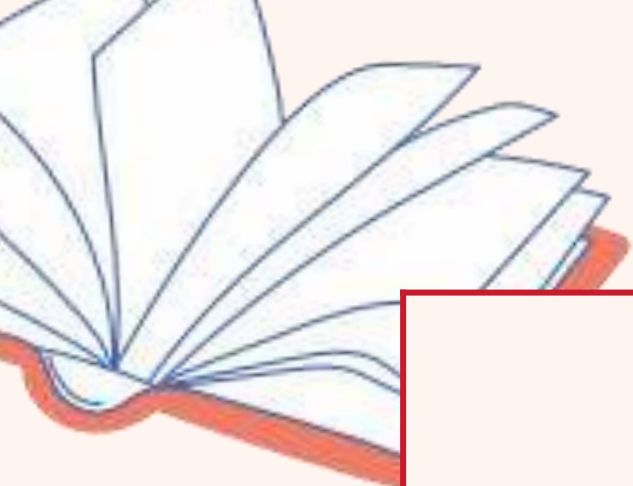

134 employees in the amount of 94,084,000 soums through union membership dues privileged in various health centers of our republic referrals were given

Recreational Sports: Organized sports teams and intramural leagues to encourage physical activity.

Health Fairs: Regular events that provide information on health resources and services.

Navoi State Pedagogical Institute owns 13 libraries which located across the Navoi city

4 QUALITY EDUCATION

About 158,109 full-text electronic literature in 35 categories is uploaded in the electronic library portal system

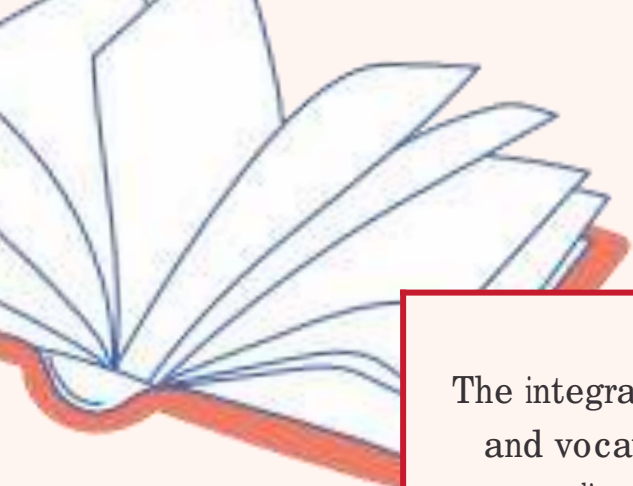

All Navoi residents are welcome to use these facilities. At the moment, the Information Resource Center with a source of 102,690 copies of books serves users in 8 study halls and 4 subscription rooms

There are also special places for disabled users in the classrooms

All the computers are equipped with more than 300 audio books and hearing aids in the e-learning hall for users with physical disabilities in the Information Resource Center of the University

The integration of local schools and vocational colleges is a policy of Navoi State Pedagogical Institute. Each year, the university provides financial and pedagogical support to a number of schools and vocational colleges

To present the most recent advancements in education, NSPI professors plan specialized courses, seminars, and sessions.

4 QUALITY EDUCATION

We have both students and professors on our volunteer team

Additionally, NSPI graduate students participate in a program known as "4+2," which entails four days of instruction at the institute and two days of practice at schools.

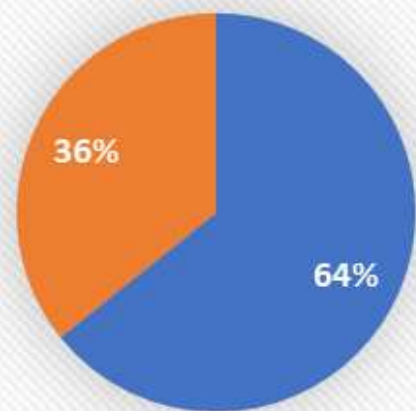

Navoi State Pedagogical institute has the system that regularly monitors all applicants including female students, low-income family students, students with special needs in order to support them during their studies. Navoi State Pedagogical Institute follows an already existed policy of providing a number of benefits for women in terms of acceptance that introduced by government. The Navoi State Pedagogical Institute has a system in place to monitor the graduation rates of women and men. For instance, at the conclusion of the academic year, faculty members from every program offered by the Navoi State Pedagogical Institute are required to submit yearly reports. Among the Program's primary performance metrics are the rates of student completion and retention. Additionally, each college must update the registration reports that the deanship of admission and registration provides at the start of each semester in order to regularly monitor students' progress and completion. It must also get in touch with those who have not registered for the current semester, look into the reasons behind it, and provide support and solutions to enable the applicants to advance in their academic careers.

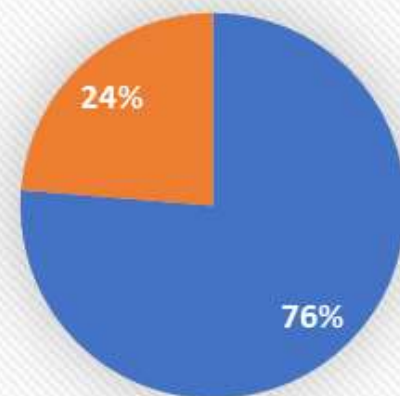

Bachelors

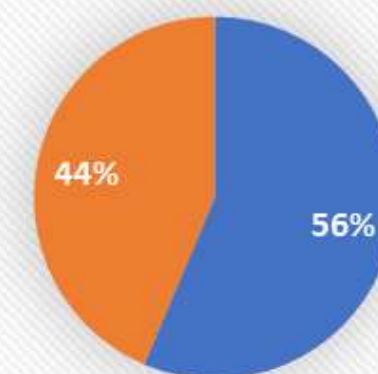

■ Female Students 64,9% ■ Male Students 36,1%

Masters

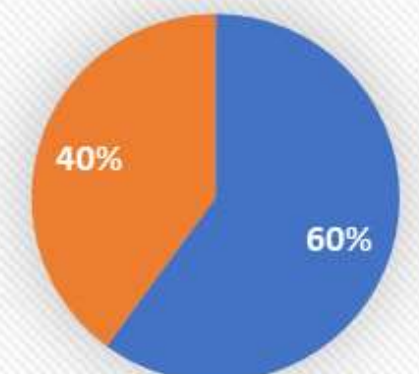

■ Female Students 76,3% ■ Male Students 23,7%

Doctorate

■ Female students 56,4% ■ Male students 43,6%

PG-Diploma

■ Female Students 60,1% ■ Male Students 39,1%

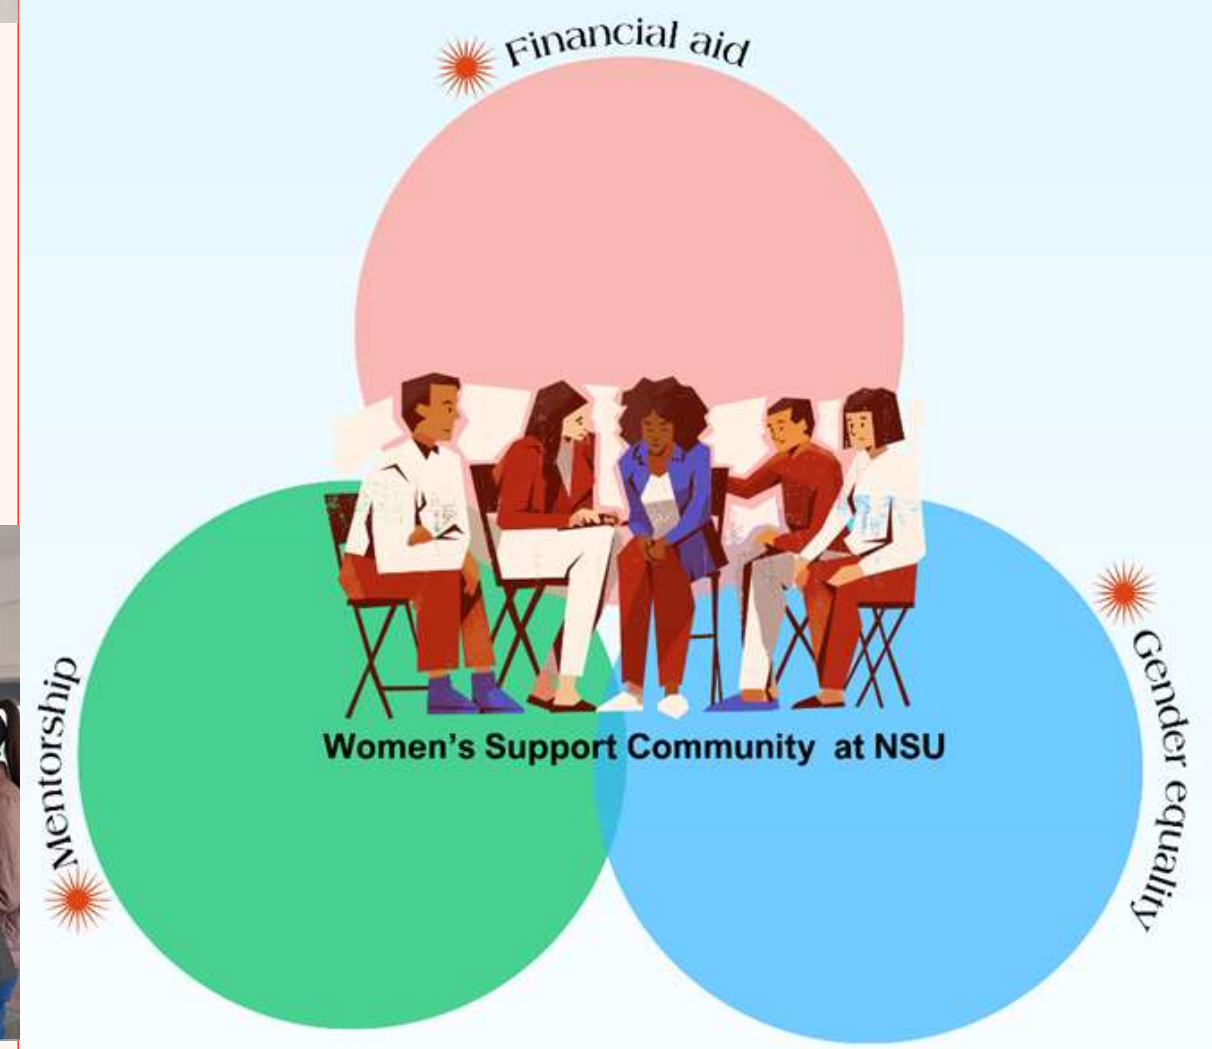

The goal of Navoi State University's Women's Support Community is to raise awareness of gender issues among its members and the general public

5 GENDER EQUALITY

From 2021 "Teacher-student" scheme has been implemented in order to further improve the education of students studying at institute.

In order to promote women's rights and raise awareness of the true significance of gender equality in society, it has been planning a variety of academic, technological, medical, cultural, and social activities

Our assigned female professors conduct individual work and group discussions with each student and closely study their living conditions and problems.

Once each goal is completed, place this tick on it or use a pencil to mark it off

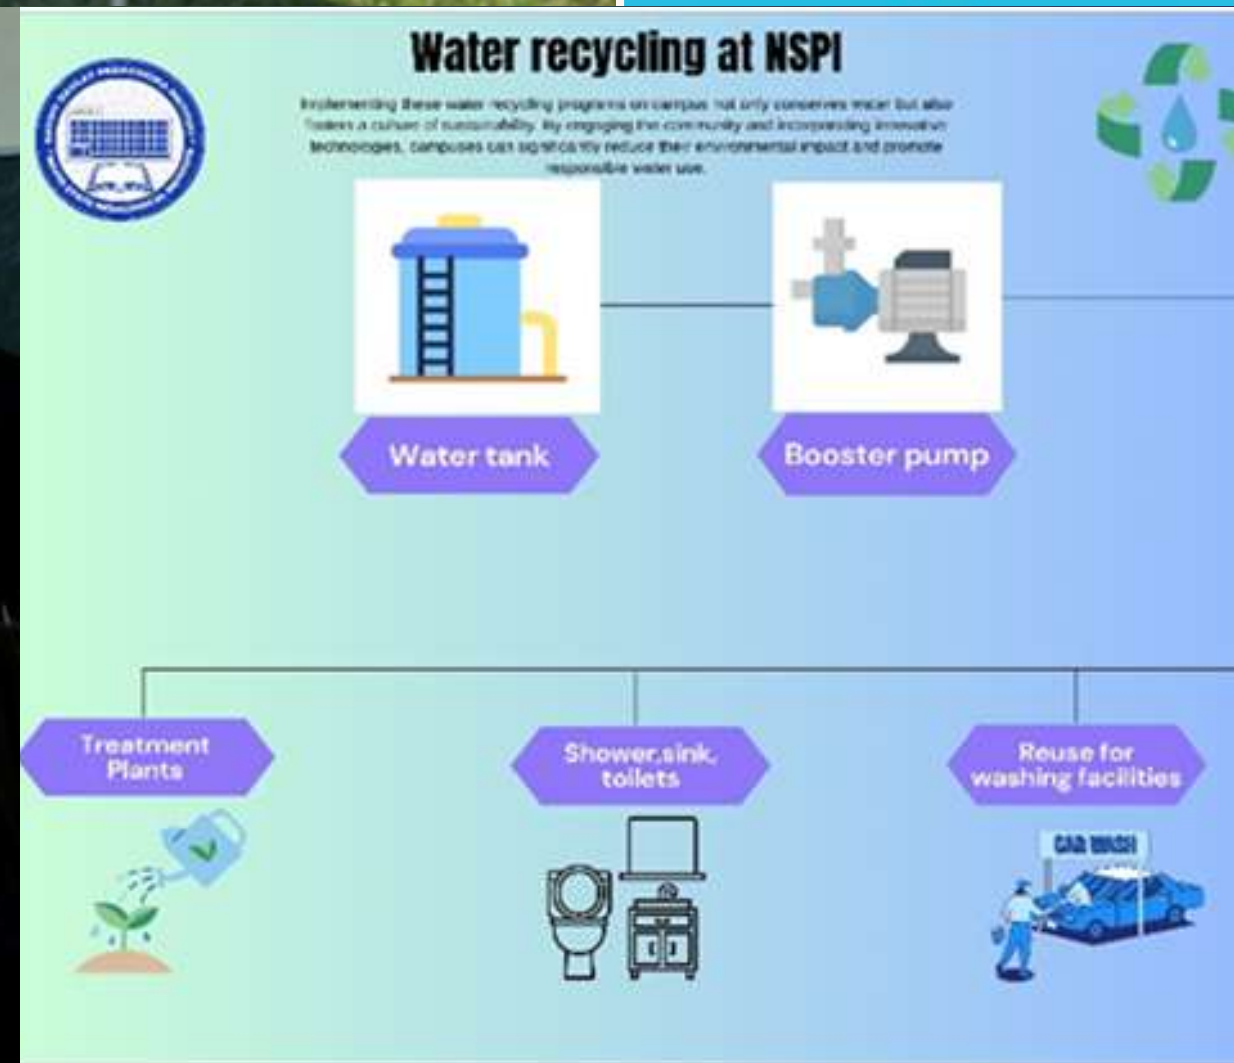

Water Audit Team of the NSPI conducts a comprehensive water audit to identify areas of high consumption and opportunities for savings.

Implementing a water conservation program on a campus can significantly reduce water usage, promote sustainability, and educate the community about the importance of water conservation

6 CLEAN WATER AND SANITATION

Charging stations have been installed to support electric vehicles, making it easier for users to charge their ZEVs while on campus

NSPI shuttle services are essential for enhancing mobility and accessibility for students, faculty, and staff

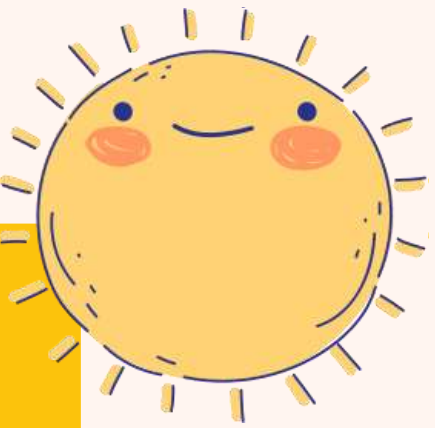

7 AFFORDABLE AND CLEAN ENERGY

Shuttles are equipped to accommodate individuals with disabilities. Additionally, shuttle services are funded by the institution, shuttle fares are free for students and staff

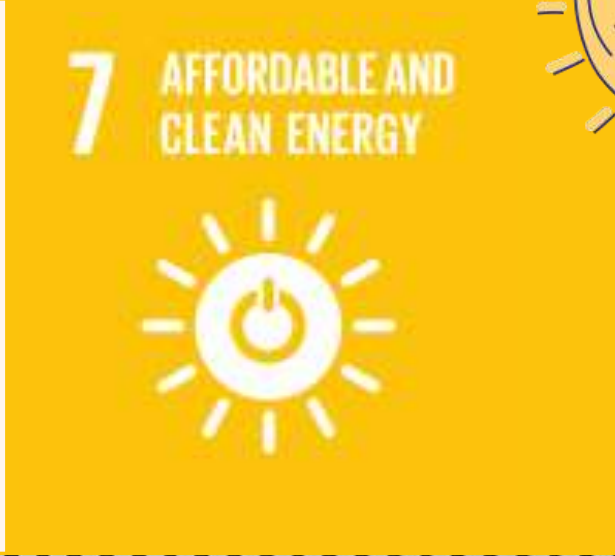

70 bicycles and 30 e-scooters have been provided by institute with small charge

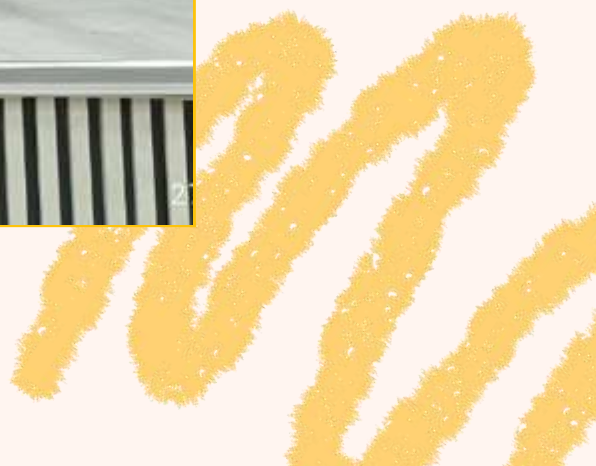

Moreover, our institute is taking the lead in selling excess energy produced under various contracts and 252 347 000 soums has been earned through renewable energy.

NSPI students and staff have received energy conservation and energy saving training and workshops. The Energy Environment and Safety organization (EESH) has run all training and workshops, offering 12 courses annually

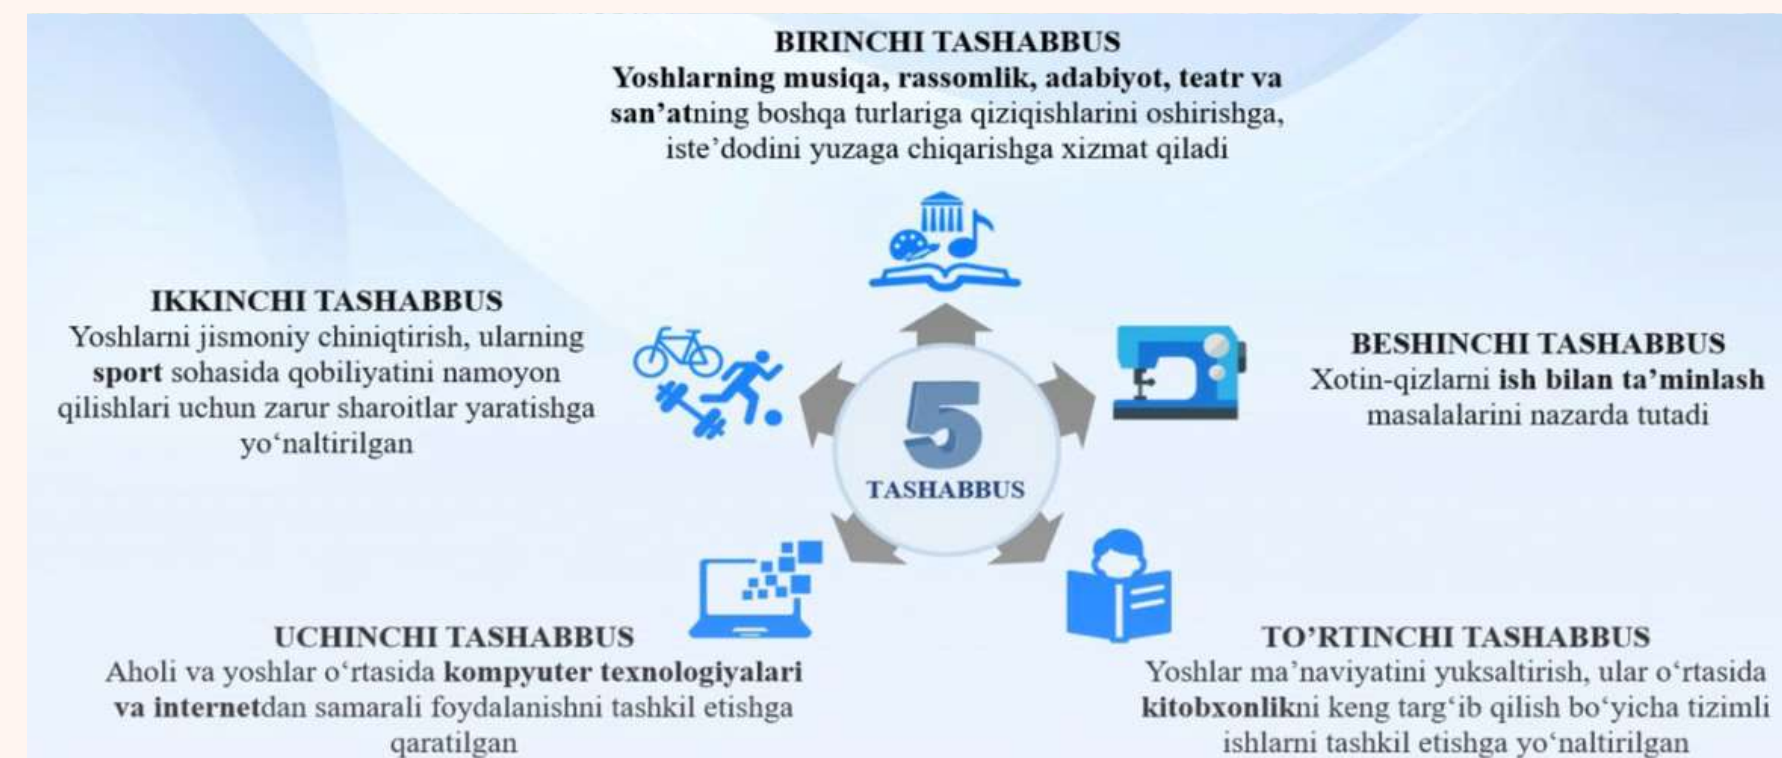

Navoi State Pedagogical Institute gives importance to utilizing renewable energy sources in order to save on energy consumption by endorsing the use of solar panels. Solar panels cover the total electricity consumption of the institute

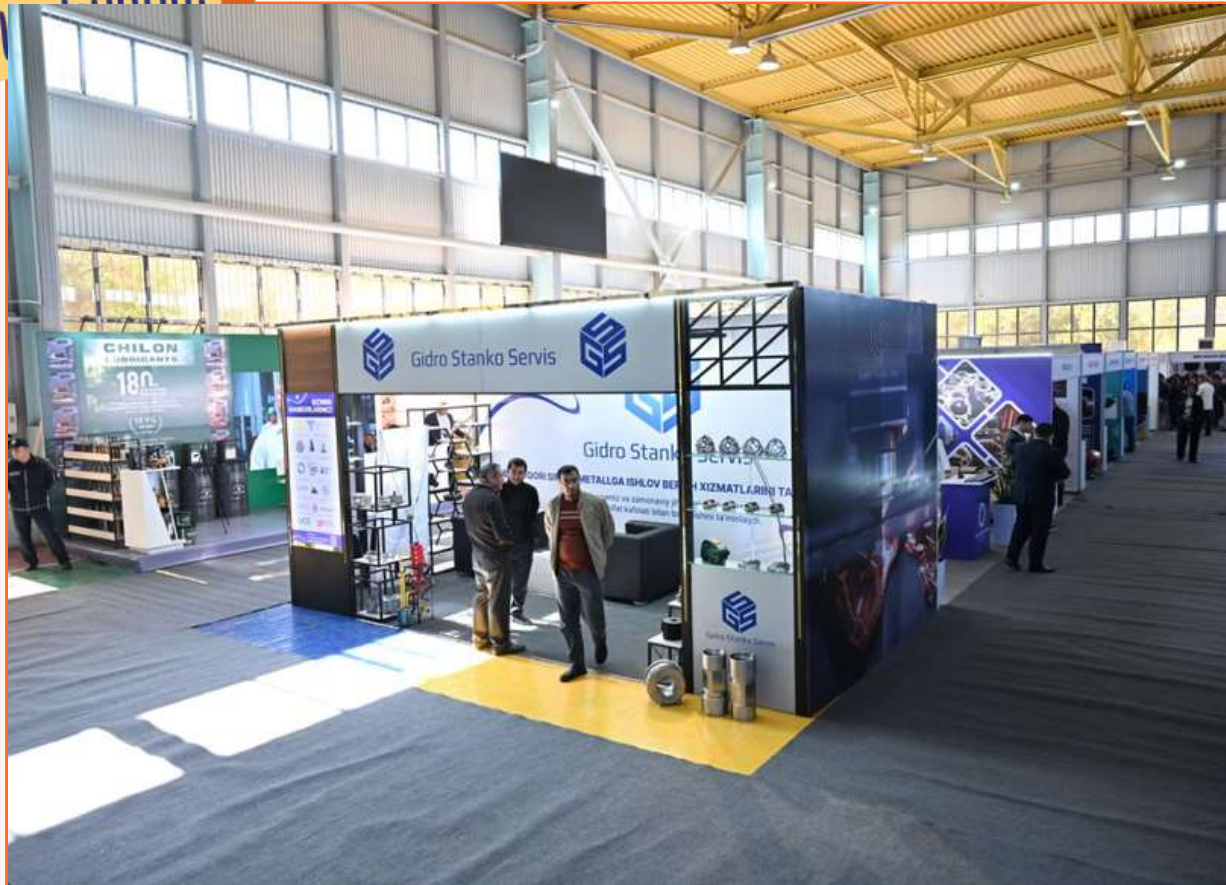

The Department of Civil and Labor Protection of Navoi State Pedagogical Institute, the Trade Union Committee of the institute and the Faculty of Pre-School and Primary Education in cooperation with the "Labor Protection Rules and Norms" dedicated to April 28 "World Labor Protection Day" a seminar training was held on the topic of "responsibility for violation".

8 DECENT WORK AND ECONOMIC GROWTH

In the sports complex "Kimyogar" in the city of Navoi, the opening ceremony of the inter-sectoral industrial fair of the Navoi region, specializing in the fields of mining metallurgy, chemical industry, energy, building materials and electrical engineering, was held.

The rector of the Navoi State Pedagogical Institute, professor Mukhiddin Kalonov, among the leaders of enterprises and organizations, took part in the industrial fair and got acquainted with the industrial exhibitions presented by the enterprises.

Industrial cooperation in harmony with the localization program is a guarantee of increasing the level of influence of priority industries within the framework of international and regional cooperation by using internal capabilities and introducing fast new modern technologies.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

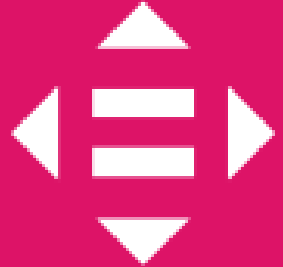

NAVOIY DAVLAT
PEDAGOGIKA INSTITUTI

Ramps, automatic doors ensure easy access to all buildings. Gender-neutral, accessible restrooms are equipped with features like grab bars and sufficient space for mobility devices

There are reserved parking spots close to building entrances for individuals with disabilities or special needs.

10 REDUCED INEQUALITIES

Access to counseling and mental health services tailored for individuals with disabilities or special needs. 214,403,500 soums of financial aid was given to 313 low-income students, and 127,212,300 soums of aid was given to students with disabilities.

11 SUSTAINABLE CITIES AND COMMUNITIES

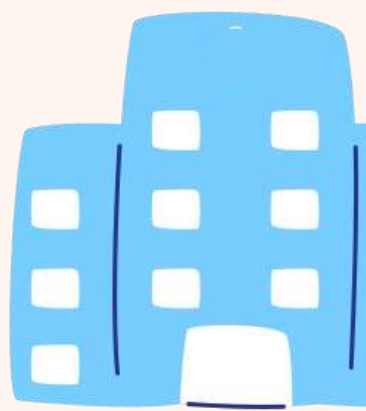

All pedestrian paths are clearly marked and designed to accommodate high foot traffic. Paths are wide enough to allow for safe passage, especially in areas with heavy use. Incorporate features such as curb cuts, tactile paving, and adequate lighting for safety

Navoi State Pedagogical Institute owns 13 libraries which located across the Navoi city. All Navoi residents are welcome to use these facilities

Navoi State Pedagogical Institute has a museum. It is open for public with free access.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Waste management team conducts regular audits of waste streams to assess the types and quantities of waste generated, identifying trends and areas for improvement gather feedback on the 3R program's effectiveness and areas for enhancement, ensuring continuous improvement

Waste on a campus by involving several strategies to manage, recycle, and dispose of materials safely and sustainably

There is a specific schedule for frequent pickups of recyclable materials to prevent overflow and contamination

Impactful university program(s) on climate change

Here are several types of NSPI programs focused on climate change that can foster education, research, and community engagement:

1. Research Initiatives

- Dedicated centers have been established for research on climate change impacts, mitigation strategies, and adaptation techniques.
- Our institute has strong partnership ties with governmental and non-governmental organizations to conduct impactful research on local and global climate issues.

2. Sustainability Offices

- NSPI has created an office dedicated to promoting sustainable practices on campus, including energy efficiency and waste reduction programs and developing comprehensive plans to reduce the university's carbon footprint and enhance resilience to climate impacts.

3. Community Engagement Programs

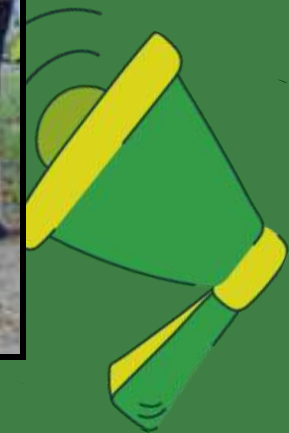

- Our institute has been hosting workshops, seminars, and public lectures to educate the community about climate change and sustainable practices and engaging local schools with educational programs that focus on climate science and environmental stewardship.

4. Student-Led Initiatives

There is “Young Environmentalists Community” that consists of only students at Navoi State Pedagogical Institute. The Young Environmentalists Community of NSPI is a vibrant and dynamic group focused on advocating for environmental protection and promoting sustainability among youth.

The community aims to empower young people to take action on environmental issues, encouraging them to become leaders in sustainability. It seeks to raise awareness about pressing environmental challenges, such as climate change, biodiversity loss, and pollution. They regularly organize more than 100 events annually to equip members with knowledge and skills related to environmental science, activism, and sustainable practices

Institute experts make regular trips to agricultural areas to help farmers grow their plants in a safe way through scientific research and laboratory activities. Conserving a wide variety of crops helps ensure resilience against pests, diseases, and climate change.

Departments of biology and zoology tend to organize educational events to increase public awareness.

15 LIFE ON LAND

Moreover, there is green houses on campus which provides a resource for scientific studies aimed at improving agricultural practices and understanding ecosystems

Institute staff usually visits farms in order to assist for preservation of diverse livestock breeds supports sustainable farming practices and adapts to changing environmental conditions

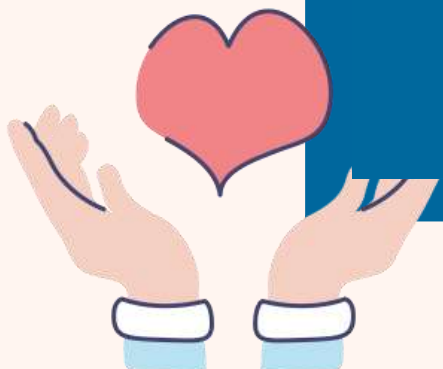

Fight against corruption
"Compliance control" system management department held a promotion meeting with the participation of group leaders of physics-technologies, natural sciences, physical culture faculties.

Navoi State Pedagogical Institute, vice-rector for educational affairs G. Yodgorov, head of the management department of the anti-corruption "compliance control" system A. Khalikov, head of the education quality control department E. Musayev held a meeting with professors and teachers of the faculty of English language and literature.

A preventive meeting was organized by the staff of the anti-corruption "Compliance-control" system management department of the institute with the participation of professors, teachers and employees

As part of the "Month of fighting against corruption", the head of the Department of Management of the "Compliance Control" system of NavDPI anti-corruption, A. Khalikov, held a preventive and promotional meeting with professors and teachers

Once each goal is completed, place this tick on it or use a pencil to mark it off

17 PARTNERSHIPS FOR THE GOALS

The NSPI has a direct role in gathering statistics on the various SDGs. The institution has also overseen over 100 Memorandums of Understanding (MoU) for the exchange of research findings and important datasets for enhanced analysis and better SDG decision-making

Navoi State Pedagogical Institute contributes the government's efforts to achieve the SDGs by 2030. NSPI collaborates with the government, business institutions, other universities, non-governmental organizations and other parties in conducting research and providing community services to expedite the attainment of the SDGs targets in Uzbekistan.

To further the attainment of the SDGs, Navoi State Pedagogical Institute (NSPI) collaborates closely with a variety of non-governmental organizations (NGOs).

NSPI has initiated and engaged in dialogues across sectors with universities and organizations around country and the world. Governmental organizations and non-governmental and other institutions worked with NSPI to host a series of webinars and dialogues in 2023

BIZNI MEHR BIRLASHTIRADI!
